Factors that could cause actual results, performance, or achievements to differ materially from those expressed or implied by forward-looking information include, but are not limited to, the risks identified in the REIT's Management's Discussion and Analysis ("MD&A") for the most recent interim period, general economic conditions; the availability of a new competitive supply of real estate which may become available through construction; the REIT's ability to maintain distributions at their current level; the REIT's ability to maintain occupancy and the timely lease or re-lease of multi-residential suites, executives, and commercial space at current market rates; compliance with financial covenants; tenant defaults; changes in interest rates; changes in inflation rates, including increased expenses as a result thereof; Northview's qualification as a real estate investment trust; changes in operating costs; governmental regulations and taxation; fluctuations in commodity prices; and the availability of financing. Additional risks and uncertainties not presently known to the REIT, or those risks and uncertainties that the REIT currently believes to not be material, may also adversely affect the REIT. The REIT cautions readers that this list of factors is not exhaustive and that should certain risks or uncertainties materialize, or should underlying estimates or assumptions prove incorrect, actual events, performance, and results may vary materially from those expected. Except as specifically required by applicable Canadian law, the REIT assumes no obligation to update or revise publicly any forward-looking information to reflect new events or circumstances.

Certain measures contained in this presentation do not have any standardized meaning as prescribed by International Financial Reporting Standards ("IFRS") and, therefore, are considered non-GAAP measures. These non-GAAP measures, which include non-GAAP financial measures and non-GAAP ratios (each as defined in National Instrument 52-112, *Non-GAAP and Other Financial Measures Disclosure*) are provided to enhance the reader's overall understanding of financial conditions and to provide investors with an alternative method for assessing operating results in a manner that is focused on the performance of operations and to provide a more consistent basis for comparison between periods. These non-GAAP measures include widely accepted measures of performance for Canadian real estate investment trusts; however, such measures are not defined by IFRS. In addition, these measures are subject to the interpretation of definitions by the preparers of financial statements and may not be applied consistently between real estate entities. The non-GAAP measures used herein include adjusted funds from operations ("AFFO") and AFFO payout ratio, and net asset value ("NAV"). For more information on these non-GAAP measures, including quantitative reconciliations to the most directly comparable GAAP measure, where applicable, the composition of the measures, a description of how Northview uses these measures, and an explanation of how these measures provide useful information to investors, refer to the "Non-GAAP and Other Financial Measures" section of the MD&A for the three and six months ended June 30, 2024, available on Northview's profile on SEDAR+ at www.sedarplus.ca, which section is incorporated by reference into this presentation. Certain other measures in this presentation, such as average monthly rent ("AMR"), net operating income ("NOI") and occupancy, also do not have standardized meanings and may not be comparable to similar measures presented by other issuers. For an explanation of the composition of such measures, refer to the "Non-GAAP and Other Financial Measures" section of Northview's MD&A.

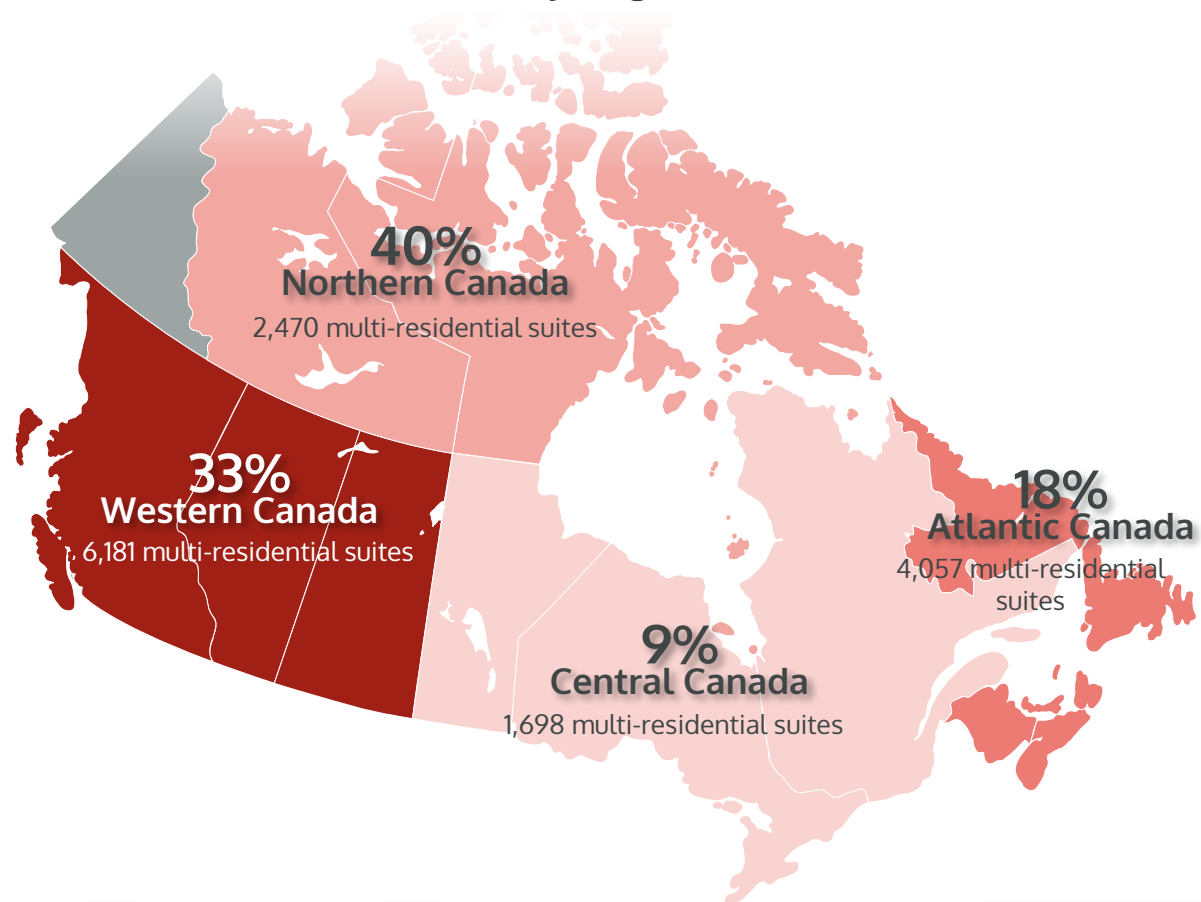

Northview Residential REIT

Northview is one of Canada's largest publicly traded multi-residential REITs with over \$2.7 billion in assets uniquely positioned in secondary markets across Canada

Our Portfolio

NOI% by Region¹

1. Based on consolidated NOI for the trailing twelve months period ended June 30, 2024.

Investment Thesis

Northview's diversified portfolio and strong operational performance position it to generate earnings growth and Unitholder value

① Strong Fundamentals

③ Sustainable Distributions

② Compelling Valuation

④ Active Debt Management

2023 Recapitalization Transaction

Northview acquired over **3,300 multi-residential suites** for **\$742 million**

Solid Multi-Residential Fundamentals

Housing supply shortage, high immigration, and higher mortgages are expected to continue to drive strong rental demands

CONTINUED HIGH POPULATION GROWTH

- The Canadian population in 2023 is up **1.25 million**¹
- Under its Immigration Levels Plan, Canada set to add approximately **500,000**² of new immigrants annually
- International immigrants and students are more likely to rent

HOUSING SUPPLY SHORTAGE

- National supply gap of approximately **3.5 million**³ more housing units needed by 2030
- The housing shortfall will continue to fuel oversized demand, as a result, rental markets are expected to remain tight

HOUSING AFFORDABILITY GAP

- High mortgage costs contributing to larger home ownership expenses, making renting an attractive option for many individuals and families

LIMITED EXPOSURE TO RENT REGULATED MARKETS

- For **73%** of Northview's multi-residential suites across **6** provinces and territories, annual rent increases are not restricted by guidelines

Strong Multi-Residential Performance

Northview's multi-residential portfolio has solid NOI growth and continued to be supported by strong housing fundamentals

Growth in Same Door Occupancy

Key Insights

Same door multi-residential NOI increased **9.4%** in Q2 2024 from **\$24 million** to **\$27 million**

Uptrend in Northview's average monthly rent ("AMR")

- Occupancy stabilization and below-market in-place rental rates present attractive AMR growth opportunity
- Renovation programs are available in acquired submarkets to unlock further growth potential

Since 2020, Northview's occupancy has increased by **740 bps**

- Western Canada's occupancy increased noticeably by **1,420 bps** of growth since inception and **420 bps** over 2023

Steady Commercial & Execusuites Performance

The Commercial and Execusuite portfolio offers consistent and steady revenue to Northview's portfolio, and solidly anchored by government and credit-rated corporations

Key Observations

15% Commercial and execusuites segment contributes approximately 15% to consolidated NOI

83.2% Steady commercial occupancy backed by weighted average lease terms of **6.0** years

83% NOI is driven by the Northern Canada region which accounts for only **60%** of total commercial sq. ft.

Key Insights

Commercial portfolio consists of 67% office, 18% warehouse and storage, and 15% retail, along with 200 execusuites

Growth opportunity from occupancy stabilization in newly acquired properties, as well as active leasing strategies to attract and retain tenants

Commercial and execusuites NOI was slightly impacted by space vacated in Atlantic Canada

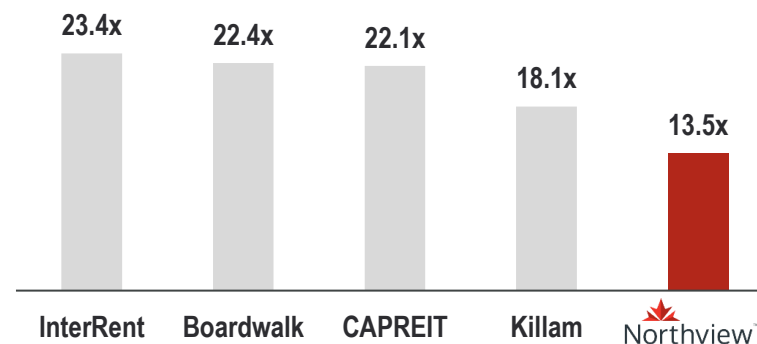

Compelling Valuation & Sustainable Distributions

Northview has a compelling valuation proposition earning an attractive yield with a sustainable payout ratio while closing the significant trading discount to NAV

2. Northview NAV is based as of June 30, 2024.
3. Northview is based on target pro-forma recapitalization transaction.

Active Debt Management

Northview's debt management strategy focuses on improving overall leverage and reducing floating interest rate exposure reduction

Leverage Improvement

- Debt to Gross Book Value¹ decreased in Q2 2024 by 420 bps from 69.5% to 65.3%
- Northview has targeted approximately \$100 to \$150 million of non-core asset sales with net proceeds used to reduce total debt
- Continue to focus on leverage reduction through opportunistic non-core asset sales, selective deleveraging acquisitions, and accessing capital markets on favourable terms

Floating Interest Rates Exposure Reduction

- Reduced credit facility balance from over \$500 million to just \$340 million at the end of Q2 2024
- Refinancing continues to provide benefits from lower fixed interest rate financing via CMHC, and using refinancing net proceeds to repay floating interest rate credit facilities
- Northview's weighted average years to maturity increased from 2.5 years to 4.9 years
- 90% of total mortgage debt is CMHC insured

1. As of June 30, 2024. Calculated in accordance with the REIT's Declaration of Trust.

2023 Recapitalization Transaction

Recent acquisitions and financial strategies have established a foundation for future growth opportunities

Traditional REIT Structure

- TSX-Listed
- New ticker symbol: NRR.UN
- Converted to an open-ended, perpetual vehicle
- Sustainable payout ratio and distribution
- Internalized asset management at no cost

Portfolio Acquisitions

- Acquired three portfolios consisting of over 3,300 multi-residential suites for \$742 million
- Sponsored and institutional investors took \$452 million of units at Northview's NAV
- Portfolio diversification and increased scale
- Access to new markets and growth opportunities

Liquidity & Debt Profile

- Increased liquidity
- Reduced leverage
- Longer weighted average term to maturity
- Increased percentage of fixed rate debt

Western Canada

British Columbia

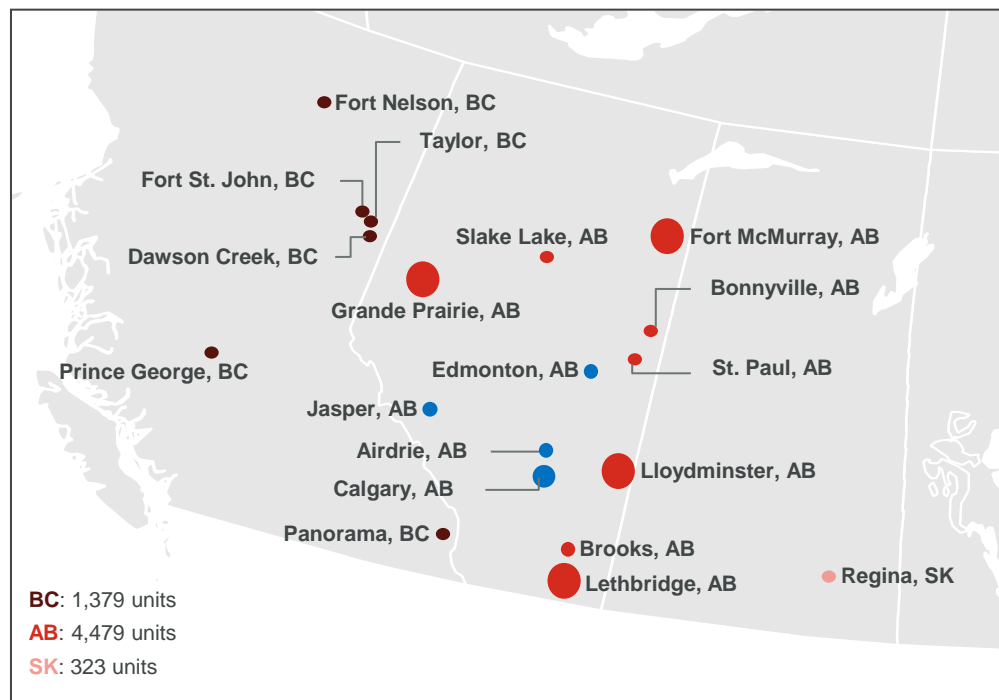

- Northern BC's economy has a predominant focus on the energy sector, which includes large hydroelectric dams, biomass facilities and wind farms.
- The real estate market in Northern BC has historically relied upon the population supporting the development of energy and natural resource sector.
- In British Columbia, annual rent increase is limited and tied to the inflation rate.

Alberta

- The diversity of Northview's Alberta properties reflects the economic diversity of the region with these population centers strengthened by agriculture, oil and gas and public and government services.
- Calgary and Edmonton are Alberta's major cities with natural resources industry as the largest driver of economic growth.
- In Alberta, annual rent increases are not restricted by guidelines.

Saskatchewan

Northern Canada

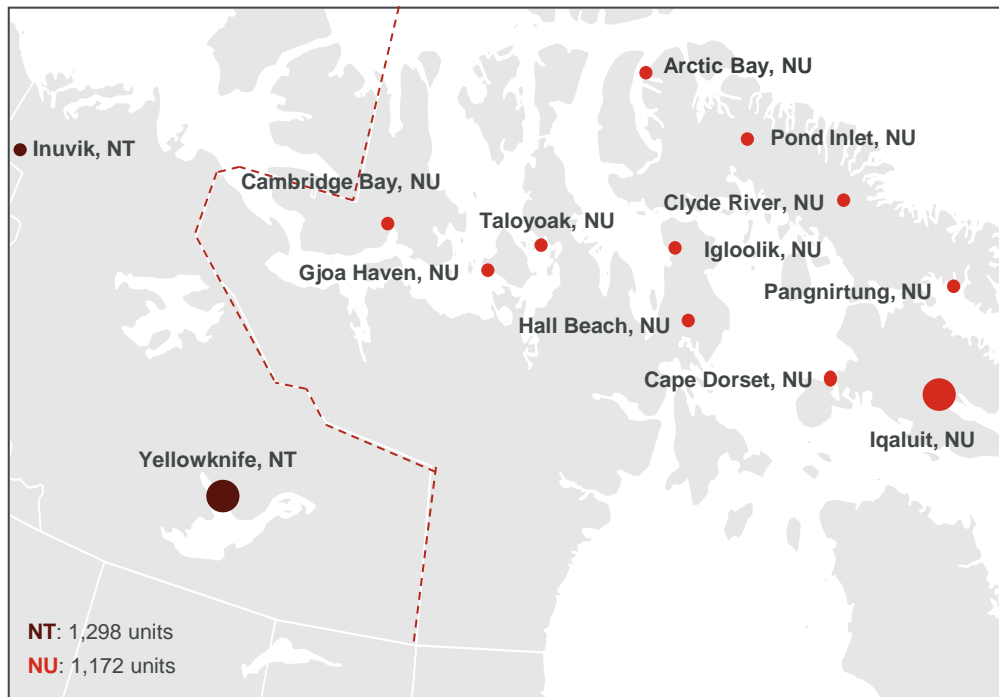

- Northview is the largest private sector landlord and owner of income producing properties in these territories.
- The territories are Northview's largest source of income and best performing region with approximately 65% of rental revenue from government leases and corporations.
- The real estate market in the territories is characterized by: high rental rates and low vacancy rates; long term lease arrangements with government corporations; practical complications with real estate development (i.e. construction on permafrost, short summer building season, high risk and cost of transportation and development); and high barriers for new entrants into this market without a sizable foothold.
- In the territories, there is no limit on rent increase amounts.

Northwest Territories

- Rental market remains stable in light of Northwest Territories continuous efforts to address housing shortage and challenges and collaborating closely with federal governments.
- Yellowknife and Inuvik rental demand is market based, similar to the traditional Canadian rental markets.

Nunavut

- Majority of the population in Iqaluit, Cambridge Bay, and the smaller communities lives in non-market housing, which includes social housing, subsidized housing for government employees, and housing for private firm employees.
- Housing cost and demand are not market based like the rest of Canada, government subsidies have a significant influence on housing outcomes in Iqaluit.

New Brunswick

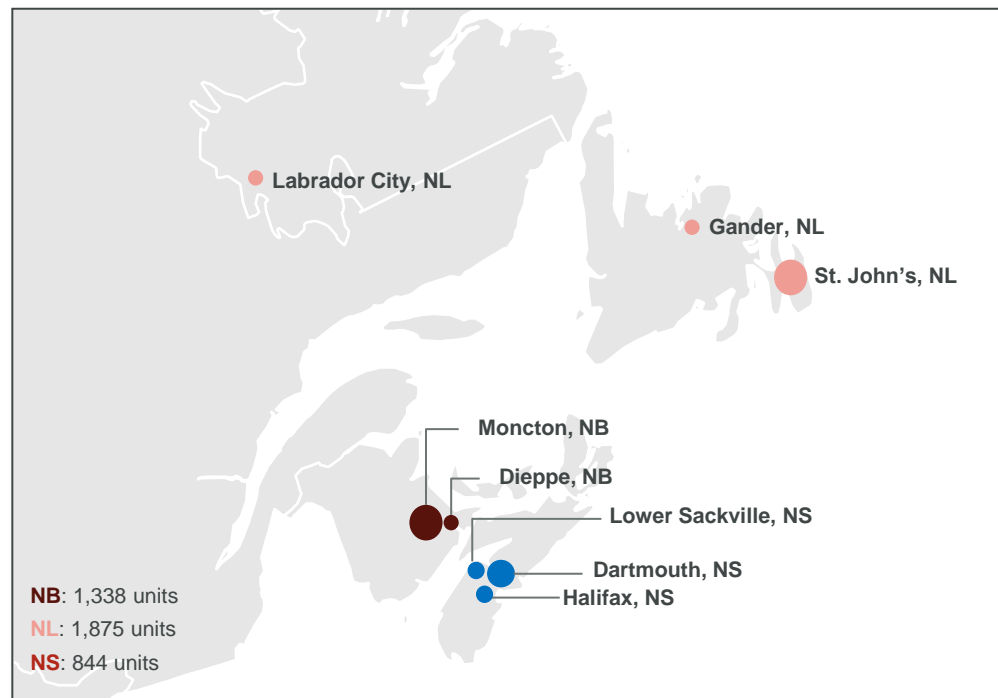

- Sustained demand for rental properties in a region that was less impacted by the pandemic.
- The economy in New Brunswick is closely tied to its export and primary sector or production are agriculture, aquaculture, forestry, mining and manufacturing.
- Economy and real estate market buoyed by increased immigration in recent years and growing population.
- In New Brunswick, there is no limit on the amount on rent increases.

Newfoundland and Labrador

- The economy is comprised of metals and mining, and manufacturing.
- Consistent demand for affordable rental accommodation has sustained demand and occupancy in the province.
- In Newfoundland and Labrador, rent increases are not limited by any guidelines.

Nova Scotia

- The economy of Nova Scotia is historically supported by its rich natural resources – fueling the growth of forestry, fishing, and energy.
- The services sector has also seen rapid growth in the recent decade, ranking the Government of Nova Scotia, Nova Scotia Health Authority, and Dalhousie University serving as the leading employers of the province.
- Nova Scotia has a temporary rent control policy, brought in during the pandemic which is set to expire at the end of 2025.
